SKULL COLLECTION

Have you ever heard the Danse Macabre by Camille Saint-Saëns? Imagine this: skeletons dancing for Death until the rooster crows at dawn and they must return to their graves. These rocking skeletons and skulls are what inspired the Skull collection. The traditional floral borders and golden crowns provide a playful note at this sinister dinner party. Rock on!

The Skull collection is designed by Royal Stafford, an industry leader in the manufacturing of English cream coloured earthenware. Established in 1845, Royal Stafford is recognised around the world for its high quality, beautiful tableware. Every piece of pottery is produced with attention to detail and a lot of love and care in one of the oldest pottery factories in Stoke-on-Trent, England.

After the first biscuit bake the products are decorated with the underglaze printing process, then glazed and baked a second time. This ensures that all creamware is extremely durable, dishwasher-proof and safe to use in microwave and oven.

Homelab is a platform for the world's best designers, master potters, artisanal potteries and innovative minds. We search and source the globe for people and initiatives that break boundaries and push tableware, ceramics and pottery into new dimensions. Whether it is by utilizing long-forgotten, traditional artistry in new modern ways, or by using materials, shapes and processes no one has ever thought of before.

Homelab loves to give artisanal potteries like Royal Stafford a modern platform and has added new shapes to the Skull collection. Our collection consists of plates, bowls and cups in various sizes.
