japanese tea ceremony

The Japanese tea ceremony is called Chanoyu, Sado or simply Ocha in Japanese. It's a choreographic ritual of preparing and serving Japanese green tea, called Matcha, together with traditional Japanese sweets to balance with the bitter taste of the tea. Preparing tea in this ceremony means pouring all one's attention into the predefined movements. The whole process is not about drinking tea, but is about aesthetics, preparing a bowl of tea from one's heart. The host of the ceremony always considers the guests with every movement and gesture. Even the placement of the tea utensils is considered from the guests view point (angle), especially the main guests called the Shokyaku.

handmade cups & mugs

Robust and handmade: create an original vintage atmosphere on any dinner table with these stoneware cups in organic shapes. Made in Japan in a limited edition, each cup is unique. Mix and match the various natural shades and forms of these cups. The attractive price allows you to add character to any breakfast, lunch or dinner table.

flora japonica

The Flora Japonica collection is inspired by Dutch botanists bringing back new plant species from Japan, centuries ago. It is all about exploring and admiring Japanese flora. National treasures like the fine-leaved maple, the heart-shaped katsura, pretty white pine trees and one of the oldest trees on earth, the ginkgo biloba, have found a place in our collection. Amidst these wonderful trees you'll find another Japanese phenomenon: the dancing cranes. Do you share our love for Japanese nature?

nippon blue

Nippon Blue is one of our classics, never out of date. Its lustrous decorations are an eclectic mix of traditional Japanese and newly designed motifs in the signature shade of deep blue. Nippon Blue is available in a complete range of coffee and tea mugs, cups and pots, breakfast and dinnerware sets, everything you need for a beautifully set table. Style it with other pieces from the Nippon Blue collection, or with white for an elegant look.

nippon black

Nippon Black combines the best of two worlds. The elegant shapes, decors and high quality porcelain are traditional Asian, while the clean black-and white is inspired by the minimalism of contemporary Scandinavian design. With a host of different decors to combine and play with, they add a subtle surprising touch to any interior style.

crane & tiger

In Japan and other Asian countries, the crane is seen as a symbol of luck and the crane stands for long life, peace, justice and cranes are the messengers of wisdom. According to the Tibetans, the white crane is the symbol of freedom. The tiger teaches you how to become a warrior of the light. It gives you the tenacity, the courage and the bravery to put your ideas into practice and to fulfil your heart's desire. It shows you how to develop your unique personality and individuality. It helps you to stay on the right path and protects you against attacks and unsolicited guests. It shows you the way to be free of your soul's prison. Take on the challenge of living life positively - everything will be fine!

Product maintenance

Porcelain

All our porcelain is suitable for use in (industrial) dishwashers, microwaves and ovens. Gold decorated items are not suitable for microwave use, due to aggressive rinse and temperatures in dishwashers, golden decorated products are recommend to wash by hand. It is important that you follow the guidelines issued by dishwasher manufacturers. Excessive rinse temperatures and overdosing of washing agents may damage the glaze. Most damage occurs during loading and unloading a dishwasher. Preferably use special dishwasher baskets (racks) that prevent contact with other porcelain items during the wash cycle and at loading/unloading.

When removing food residues beforehand, use a plastic scraper to prevent damage to the glaze. Never use metal objects or cutlery for this.

Stone & Earthenware

All our Stone & Earthenware is suitable for use in (industrial) dishwashers and microwaves, oven use is not recommend as there is a chance of breakage due to temperature shock. It is important that you follow the guidelines issued by dishwasher manufacturers. Excessive rinse temperatures and overdosing of washing agents may damage the glaze. Most damage occurs during loading and unloading a dishwasher. Preferably use special dishwasher baskets (racks) that prevent contact with other porcelain items during the wash cycle and at loading/unloading.

When removing food residues beforehand, use a plastic scraper to prevent damage to the glaze. Never use metal objects or cutlery for this.

Glass

All glasses may be washed in an (industrial) dishwasher. We advise using dishwasher baskets to minimise breakages during the washing cycle and to use a non-caustic cleaning agent when washing the glasses. This is because caustic cleaning agents can damage the surface of the glasses and turn them dull. Always wash new glasses first before initial use. Never wash glasses at temperatures above 60 degrees. Higher temperatures can cause dirt to become baked onto the glass.

Never pour cold liquids into a hot glass as this can cause the glass to shatter. It is also advisable to gently prime a glass with hot water before pouring hot liquid into it.

Wood & Bamboo

Wooden items are not suited to use in an (industrial) dishwasher. The surface of the product can be maintained by regularly rubbing it with vegetable oil.

Wooden items must be washed in warm soapy water and then dried directly.

Wood & Bamboo is a natural product and will show wear and tear after a period of use.

Melamine

Melamine may be washed in an (industrial) dishwasher. Do not use any scouring agents, bleaches, scouring pads or metal objects to clean melamine, as this will leave scratches on the melamine.

Melamine is not suitable for use in the oven or microwave.

Melamine products are suitable for use in a bain-marie or chafing dish. When using melamine in chafing dishes, it is important that you pour sufficient water into the container.

Our melamine products are inspected and tested and approved food safe. Usage temperatures between -20 and 70 degrees.
